A SPECIAL SUPPLEMENT TO **Forward**

Seton Hill
UNIVERSITY

Class of 1935

A story of friendship is represented in the silk screening of Seton Hill College between **Wen Chia Wu** (top left) and her fellow classmates. Mary Ferguson, the daughter of **Catherine McFeatters Kane** (bottom left), contacted Seton Hill to contribute the third of its kind. Mary Ferguson wrote, "my mother graduated from Seton Hill College in 1935 with classmate Wen Chia Wu from Peiping Beijing, China. The early 1930's was a time between two world wars and the middle of a great depression. Wen Chia would go home with my mother to Wilkesburg, PA for the holidays. One story which my mother related was Wen Chia was perplexed that Americans were not supposed to eat dogs, but yet was served a hot dog! On a rare trip

home to China, Wen Chia used a picture postcard of Seton Hill College to have beautiful silk tapestries made that she gave as gifts. Wen Chia returned home after graduation to a very troubled China never to be heard from again. This picture always hung over the mantel in my childhood home. I am

donating this piece of Seton Hill University history in memory of my mother's memory and her beautiful friend, Wen Chia Wu, so that many more generations may enjoy its beauty!"

News Agent: **Martha Whelan Murphy**, mwmddirect@aol.com, (330) 759-1865, 1393 Virginia Trail, Youngstown, OH 44505-1642

Greetings to members of the class of '41! According to our alumnae office I should have been able to be in contact with eighteen of us but, I was not that fortunate. Be assured that I tried. Those I did reach were **Barbara Dowling Beaudry**, **Agatha Mankovich Beresky**, **Edith Henry Dolance**, **YaFu Louise Legow**, **Mary Cay Kalman Griglak**, **Margaret Whelan LeFond**, **Marcella Lipowicz Rosinski**, **Elaine Schiller Voegelé**, and **Mary Paul Zang**. **Barb** keeps active by playing bridge three times weekly. She still loves antiques. She has given up driving and gardening since she has difficulty using her right arm. But family parties are great and her most recent celebration for her ninetyeth birthday was wonderful. **Aggie** has sold her home in Erie and moved to an assisted living facility in Wisconsin where she is close to her son. **Edith** is still driving, not great distances but to do shopping, attend church and go to the library. She has had successful knee surgery but is losing her eyesight. However, she can still watch TV and her favorite channel is PBS. **Ya Fu** seems to be one of our busiest. Late last month she and her entire family celebrated her 92nd birthday. She said her apartment was so loaded with daffodils she could have 'opened a flower shop'; she has been doing some traveling. Within the last nine months she was in Orlando to attend the latest premier concert by her niece who is a composer, professor of music and owner of a music business. Later she was in Wisconsin for a family reunion. Her daughter Nancy is the Director of Information Systems at the University of Wisconsin. Her son Robert is Senior Economist at New York Power Authority. Knowing all of this would we believe she now finds flying too difficult, she no longer drives but she feels well. What does she do on a weekly basis? In summer she still goes golfing and goes on walking trips. Her picture is in the October issue of the *Smithsonian* for Kendal where she now resides. Look for her on the internet at www.kenda.org and by the way, she has six great grand children. **Mary Cay** and her husband enjoy their winter months in Florida. She still drives short distances but has given up golf. She has a pacemaker now and with it she is feeling much better. Her husband also has heart trouble but they are able to enjoy family gatherings especially on holidays. **Peggy LaFond** still lives in their family home. She said she misses her independence since she no longer drives but is grateful that her children live close by. **Mary Paul Zang** reports that she is 'alive and well.' She reads often and much and her social activity is playing mahjong. **Marcella** has suffered a broken hip and consequently moved from her home to a retirement community. She no longer drives but has three daughters near to her. **Elaine** reports that she is contented living in a wonderful retirement community. Her eyesight, however, is not good. In fact she said she is considered 'legally blind' but she is able to watch TV and her favorite channel is EWTN, the ecumenical program. She still watches old movies too. Please know that it is good to talk to each of you. I especially enjoy our 'do you remember' bits and I hope that we will have a good turnout at our 70th REUNION on the HILL in June. God bless you all and please do keep in contact with our 'alum' office.

Many thanks to those classmates who were able to send news about themselves and their families. **Irene Janusczewski Paulson** wrote that her older daughter Cheryl has retired from teaching; her other daughter is still teaching. Three granddaughters are married and the 4th will be married in January. Her oldest grandson is marrying next fall. Another grandson is a naval engineer architect in Washington DC. Her youngest grand-daughter is a sophomore at Rochester University in New York state. She also has a great grandson, born on her birthday. Irene herself does not travel much anymore but she still drives and gets about. **Grace Riggie Filicetti's** husband Guido wrote that she is in a nursing home, doesn't know her 5 children and sometimes doesn't even know him. He says it is sad knowing the woman she was and seeing her now. So please keep Grace in your prayers. Grace was a roommate of mine for 4 years and she has the sweetest singing voice I ever heard. **Ann Frances Hall Marshall** wrote a letter with the most interesting enclosures – particularly in regard to the recent publication of her first novel. Here is a brief summary of her life up to now. She and husband Bob lived busy lives – raising 10 energetic children. They built a 6 bedroom home to house this large and active family. She and Bob both earned graduate degrees. Bob taught Latin at Mt. St. Mary's University; Ann was an adjunct teacher at the University of Maryland for 5 years and then supervised the Adult Education Program of Frederick County, Maryland. She was caretaker of elderly relatives for 8 years. On the publicity blurb for her book she says quite simply – "I am 89 years old. I didn't write my first novel years ago because I didn't have time."

All her children helped in different ways to get her book published. The book is "Crooked Lines" with a second book "My Beloved is Dead" due out in 2011. One of her enclosures to me was a signed copy of her book which I read avidly and recommend heartily. Ann finished the publicity blurb with the following: "I really can't describe how exciting it is to see my story published. Makes me feel like "I'm seventy again!" Her book "Crooked Lines" is on Amazon. See the back story at <https://alumni.setonhill.edu/crookedlines> ... **Jean**

Meagher Ulitz wrote, my oldest grandchild, Bill Cook and wife Lorna are expecting their first child (my second great grandchild). My youngest grandchild, Melissa Frase, is a senior in high school and is an exceptional basketball player. While playing AAU basketball this past summer, she tore her ACL and her meniscus in her left knee. She was operated on in August and has been on therapy and rehab ever since. She can't play again until mid-January at the earliest and she's lost all chances for a full scholarship for this year. She has to find out if she's the same player she was before the accident. My grandson James Ulitz graduated from the New England Institute of Arts in December. His father and my son Mike Ulitz had his company close their doors in July. He was fortunate to find another job and he's in 6 months training for a managerial position with Hannaford Bros. As for me, I keep busy. I have a computer and this Christmas two grandsons gave me a Kindle. It's kind of fun but I still love the feel and the smell of a real book (it's the librarian in me!)...I talked to **Mary (Bunny Wurtz) McBride** on the phone and she is doing OK. She uses a walker and stays for the most part on the main floor of her home. She is fortunate to have members of the family living nearby...

Isabelle (Beattie) Anderson writes that she and her husband Jon live in a cluster home development in Strongsville, Ohio but become snowbirds in winter in Sarasota, FL. Isabelle still teaches Nutrition to about 35 women once a week. She and Jon walk and use the exercise room to keep themselves in good shape. Jon has a defibrillator and Isabelle had a knee replacement in August. They are both interested in genealogy and do research in both Ohio and Florida. They have been married 61 years and were blessed with 4 children and 7 grandchildren...

Isabelle "Sue" Marron Shirley says her grand-daughter Laura will be marching in the Rose Bowl Parade – playing the flute as a member of her Downingtown, PA High School Band. Her brother Nicholas attends University of Rochester, NY and is a drummer in the college band – a truly musical family. **Dottie Wideman** writes that since she retired in 1987 she fills her days with a cruise each year and car trips to various sections of our country. She has lived about 45 years in her comfortable lake-front home in her small community in northern New Jersey and enjoys sailing, canoeing and swimming in summer and in winter takes courses (audit) at local colleges and participates in activities at local ski resorts. She's active in her church, attends book club meeting and meets with her friends. It sounds like a rewarding, active and full life...I spoke to **Marie (Scholl) Wareing** in South Carolina. She sounded in good spirits and says she gets around with a cane. She has 8 children, 25 grandchildren, and 26 great grandchildren. The latter figure is still growing!...I received a rather sad letter from Dean Decima telling me that his mother **Josephine "Jo" Horgas Decima** died last January. Dean said he recalled his mother often declared to anyone who would listen: "I'm a Seton Hill girl!" She was very proud of her time at Seton Hill. Dean also said he and his family would like to... "share with his mother's classmates news of the Josephine J. Decima Award for Excellence in the Field of Spe-

cial Education that her children established in her memory. Jo Horgas Decima was the wife of August Decima and the mother of 4 children, a beloved grandmother and great grandmother. She was a pioneer in the field of special education, a lifelong advocate for children with physical and mental challenges and an inspirational role model for all teachers. **Rosemary Emmerling Marsolais** wrote that last year's plan for a family Caribbean cruise did not occur but that her family is now expecting to depart on a Norwegian cruise in May. She hopes to tell us next year that this cruise actually happened! **Mary Elizabeth Turney** writes she has a mild case of Parkinson's disease but she still drives, gets around with a cane and a walker. After retirement in 1984, she came back to Greensburg and now owns her own home in the countryside. She has 2 mini poodles and is active in the local dog club. She loves to read and also is a bird watcher. She sends her best to all her classmates...If anyone has an address for any of these fellow alumnae, please let me or the alumni office know: **Mady Kirk, Norma Albright Leister, Florence Trexler O'Malley, Joscelyn McLaughlin Hutchinson**. Please keep sending me your news in the future months. Thank you so very much for your wonderful response at this time. Happy New Year to all!

HAPPY NEW YEAR TO ALL OF YOU! Trust you all had a wonderful Christmas and have great plans for 2011. Would you believe that sixty-one years ago we were all just beginning to get to know each other, making friendships and building memories to last a lifetime? This marked the end of our first semester on The Hill...It is with a heartfelt sadness that I report the death of **Mary Elizabeth Howley McFadden** on June 13, 2010. I received a letter from her sister **Patricia Howley Morton '51**. I called and we chatted for quite a while. Letters of condolence are to be sent to Mrs. L. Clark Morton, 129 Elm St., Wheeling, WV 26003 6046. **Carolyn Vrankovich Hixson** died on July 1, 2010. This came to me indirectly and I have been unable to find a way to determine to whom

cards/letters of condolence can be sent. When I called the phone number listed in the 2009 roster, I always got the same message: All circuits are now busy. Please call back later. If any of you know how to find this information, please let me know. There may be some who want to acknowledge her passing. I, for one, would like to. I'm sorry to have to report the death of **Carolyn Foley Krepps '70**, the daughter of Jack and **Mary Virginia McMahon Foley**. Carolyn died on September 10, 2010 Condolences may be sent to: Mr. and Mrs. John S. Foley, 1225 S. Pittsburgh St. Connellsville, PA 15425...It is with a heavy heart that I report the death of Tommy Chegin, **Loretta Mhley Chegin's** husband. We all remember Tommy and his faithful attendance at all our reunions. A lot of fun memories there. All of these friends will be seriously missed. Our heartfelt sympathies and prayers go out to their families and friends. May they rest in peace. There must be some happy news to end this report...Let me see, **Margaret Jack Mann** surely had the greatest of Christmas vacations. She spent about 3 weeks with each of her three daughters – that's about 9 weeks on the go – and she wonders why she's bored being snowed in in her apartment. (Pittsburgh has been under snow and/or ice all January)...I, your humble correspondent, spent the usual Holidays in Florida, but my fairly newly-minted great grandson was also there. I say "fairly newly-minted" because he came along the 26th of June. He is now 7 months and is in complete control of the family. Cailey, his sister, is now 11. Oh, That gives me 2 great granders, Margaret Mann has 5. How many do YOU have? How old is the oldest? Let's find out who started the grand kid chain first. Until I hear from YOU, that's it for now. SURPRISE ME! WRITE – TA TA

Classmates who could not attend the reunion because of ill health or for travel restrictions missed a good time. They would have been proud of their Alma Mater. Classmates from 1931 Wish Each Other a Happy 100th Birthday

Mary Abruzzino Dattilo '31 has been playing poker since she was 7; she recalls playing with her father using matches for chips. At 101, she's not about to give up her favorite pastime – she still gets together with her friends

on Saturday nights to play. She believes playing poker and working crossword and Sudoku puzzles keeps her sharp. The other women in her poker club would appear to support that belief; the average age of the group is 91. Mary graduated from Seton Hill in 1931 with a bachelor's in general home economics, which she taught at the high school level prior to getting married. During World War II, Mary recalls using her home economics knowledge to teach people how to purify polluted water and fix meals with powdered milk (and a minimum of butter and sugar.)

In October of last year Mary called her classmate Marge (Mary) Stratman Merry '31 to wish her a happy 100th birthday. The ladies had not spoken in years and had a great time catching up! They agreed, *Hazard Yet Forward!*

announced the death of our dear friend **Norrie Rainbow Belin**. She was the News Agent for many years.

Patricia Walsh Sennott writes, my pleasure this summer along with a day trip to beaches and Maine lakes, is I finally ripped out all of my carpeting and after sanding the old 1911 floors and refinishing them, am enjoy the amazing floor patterns newly revealed in the refinished wood. It was a treat this spring to have JoAnne Boyle host a "wine & appetizer" get together in Boston and give an update on the new world of "iPads" for all students this September. What a different world! Last Christmas, both my teenage grandsons got their own laptops – recently I bought one at age 84 determined to use it more than I ever have for the one desktop upstairs. I live at the kitchen table and use it as a desk – email address is patsennot@verizon.net. Words of encouragement and communication from SHU friends are most welcome. **Catherine Ruddle Russel** has 3 children who are all married and has 7 grandchildren. She is involved in her parish. **Georgia Theodore Van Kampen** has suffered mini strokes and needs constant care, she is improving slightly. **Jane Garhart Leyde** now has 15 grandchildren and 9 great grandchildren. Gloria Cavallo Rend was busy this summer restoring an 1880 red brick, one-room, school house. As class chair, she sent the following to the class of 1950 via email on June 7, 2010, we are printing for those who did not attend: Dear Classmates, This is the day after our 60th reunion which I attended and was acting class leader. We have 51 living members, 31 deceased and 11 lost. Of those 11 lost, 3 of them have phone numbers listed. So, how could they be lost? I am going to call all 3 to report. I am sending this earliest report to those of you who are with me in the 21st century with e-mail addresses. Snail mail will be used for the others or phone calls. Seven from the Class of 1950 attended the reunion: **Shirley Frye**, **Norma Lutz Spina**, **Mary O'Hare**, **Mary Jean Fritschi Donley**, **Mary Pellicano** and myself. **Pauline Pellicano Territo** was awarded the Distinguished Alumni Leadership Award at a lovely ceremony before the Saturday night banquet. It was a memorable ceremony...I had "regrets" from **Mary Jane Devlin**, **Carol Burke Curran**, **Patricia Burke Bijwaard**, **Sally Todia Knill**, and **Rita Higgins Wolf** who mailed us a photo composite of her family and newest great-grand baby...We missed **Nancy Gregory Hazlett** so we decided to call her from our class meeting. We were saddened to learn from her husband Don that she is suffering from dementia and is at home. He is her caregiver. We prayed for strength for both Nancy and Don during the meeting. The Class of 1960 in their class report mentioned that they missed her also. They too recalled that Nancy played our class songs and we sang into the night with other alums after the Saturday night dinner. What a great gal she was. A note to Don and Nancy would be nice from her classmates; Nancy and Don Hazlett, 2504 Windy Way, Louisville, KY, 40207-2320, (502) 897-0621...At our class meeting, we went thru the memorabilia from other reunions and enjoyed reminiscing. We were able to report that our reunion giving goal was \$7,000 but by May 28, we had reached \$7,260, Thanks to all that contributed – good job – I agreed to be class chair again in 5 years, God willing, and **Mary Jean Fritschi Donley** agreed to be the class news agent. We have reached the time in our lives when we experience more frequently the sadness of life. We express our sympathy to **Pat Sunder Confroy** whose husband Jim died October 1, 2010 in South Carolina, the night before his grandson's wedding. Their five children along with their spouses, and their 17 grandchildren joined them for a four-day celebration of their 50th wedding anniversary. It was a marvelous time. A former roommate of one of their sons has become a priest, and their boys flew him down from New York to celebrate a private mass at St. Bede's Chapel for them. They renewed their vows. She visits her sister in Virginia Beach, has lots of nieces and nephews and is thinking about attending our 55th reunion... **Patricia Clifford McTigue** is recovering from knee surgery and hopes her recovery will enable her to attend our reunion. She and her husband, Tom, are well and she loves to do water color painting. They cruised this year through the Panama Canal and Costa Rica and she said that after day seven, she was ready to get back on dry land. They had been to Italy the year before in their travels... **Carole Coulter Armenio** had no news to report other than she, too, was thinking about attending our upcoming reunion... **Marilyn Connor Cassels** is another knee surgery post-op and she is a month ahead of Cliff. After 19 years of teaching in elementary school and then 19 more years teaching English comp in college (shades of Sr. Miriam Joseph!) she has decided that being a grandma is her next big job. Their daughter, who is expecting her third, lives with them and now she can begin all over again being a surrogate Mom with lunches, transport, play dates etc., while her daughter is working. They celebrated their 50th wedding anniversary this year. Sue is a big fan of Facebook as she has been able to keep up and find many people either that she has taught or known through the years. She finds it a fascinating resource. The one sad note is that her 40 something son had an above knee amputation after years of all sorts of therapy and surgery only to discover he had the same kind of tumor that Patrick Kennedy has had. Her son is flashing his new prosthesis around to the delight of inquisitive youngsters and everyone marvels at what technology has been able to do to help people to walk again. If you would like more info about this, check the website "clegstories.com"... **Anne Haenn Bedessem** is also thinking about attending her 55th and life seems to be on an even keel for her this year... **Sally Healey Thomas** is thinking about coming... **Rae Hengesbaugh Fritz** reports, no news, but if anyone in her class is interested in a trip to India, she is dying to visit there... **Carol Leightner Walsh** cannot attend this year... **Marcella Logan Hayden** is thinking about coming to the reunion and trying to figure out the best transportation mode from Rhode Island... **Elizabeth Patton Walker** is now living in a senior residence and loves it! Ginny's daughter, Anne, will begin building a home in Sequim, WA, on her farm property. Ginny, Anne, and her family anticipate a September move. We wish them the best with this exciting undertaking!! Ginny hopes to make the 55th reunion in June... **Joan Bachand Walsh** reports this month, she starts her 4th year as the Mayor of a town of 25,000 people. Prior to this, she was the Town Clerk for 14 years. She is presented with many opportunities to exercise her diplomacy each day. Joan's political success is due to her ability to be tactful and flexible in her daily dealings with all parties. We wish her continued success.

News Agent: **Alyce Holden Sheridan**, (614) 888-8079, psherid@columbus.rr.com, 146 Glen Cir, Worthington, OH 43085-4008

Alyce Holden Sheridan writes, I sent a desperation email to classmates on January 8th and, in record numbers, they responded. I told them we might have the smallest news column ever and that the class of 1957 wanted to maintain its reputation for "lots of news"... After I submitted news for the last newsletter, I heard from **Peggy Dalton Masterson**, who said she and Greg were doing lots of local traveling around eastern North Carolina, getting better acquainted with the home front. And – she had started flute lessons! By this writing, I'm sure she has mastered the flute and her objective is to play Danny Boy on St. Patrick's Day. We will be expecting that at our next reunion... **Joan Casale** reports she is well and happy and improving her computer skills. She is working on her book and

proofreading for daughter Alexandria. She would welcome a visit by anyone who might be in the lovely San Diego area... **Mary Lou Cronin Kintz** welcomed daughter Jean and son Michael and their families for an extended Christmas visit. They went to the beach and enjoyed cocktails and toasted each of us. She continues to keep in touch with "**Schultz**." Mary Lou substituted teaching first grade for one week and said she was so very happy to be retired. Standing four hours each day took the starch out of her! She continues to volunteer, read, attend movies and bible study and watch weeds grow. Atta girl!... **Sylvia Miller Clarke** confided that she has given up extensive traveling, square dancing and wild, wild weekends. Shucks! She visited Shenandoah National Park with family but her big news is a new granddaughter coming in June... **Colleen Gill Andora** went to Israel in November and says listening to the gospel takes on greater meaning. She will be making a ski trip to Utah this February with four of her children and families. She hasn't decided if she will actually ski or just spend quality time in the lodge. Oh – go for it, Colleen!... **Sally Leete Clarke** and husband have been traveling a bit including a tour of National Parks and a small boat cruise in Germany. They hope to visit with son, Father Stephen, whom they see infrequently because he lives in Poland. Sally visits once a month with **Barb Binder Jones** and **Sheila Reilly Knoth '60**. She also sees **Peggy Spahr Brennan** when she visits son, Doug, who lives near Princeton. ... **Pat Mullen** has had a time of it! A new knee in November and has been in therapy since. Pat was in Maine for the Senior Olympics when the knee gave out. She plans to get back in training in February to participate in the games later this year. What a gal! Rehab was no fun but she now needs only a cane and soon that will be gone. She hopes to get back to part time work soon and return to full time activities as soon as possible thereafter. Good luck, Pat!... I also received an informative and humorous email from **Kevin Enright Hannigan Fuller**. At our next reunion she will take center stage and I guarantee she will be the best stand-up comic you will ever hear. Kevin and her niece went on a two-hour Segway tour of the harbor in San Diego's gaslight district. Lots of fun! She felt like Peter Pan flying. She visits often with **Barb Binder Jones** and **Ann Jones Vescial**. Kevin's children (Marty, Linnea, Brian) and grandchildren twins Annie and Marty celebrated husband John's 90th birthday recently. In keeping with the Irish, some kind of party is always going on when they get together... It is a small world as most of us know but the chances of running into your college roommate one sunny day in Halifax, is a screaming event. Paul and I were on an Eastern Canada tour (one week bus; one week cruising). We docked in Halifax for a day excursion and up next to our small ship docks the huge Carnival of the Sea. Out walk **Pat Didyoung Wentling** and Don Wentling and eight of their grandchildren, also cruising in Canada. The Wentling's, every year, take the grandchildren to some exotic or interesting destination. It used to be Don himself taking them to Europe or elsewhere but now Pat decided she'd go also and it is easier on a cruise – not as much hassle with trains, buses, lodging, restaurants etc. We said quick but happy hello's and then went on our separate ways. We all loved Halifax, especially the cemetery where victims of the Titanic are buried. We visit the Wentling's every summer at their beautiful beach house in Stone Harbor and have the best of times – all the time!... **Rosemary Baratta** and her sister, Virginia, toured Israel in October on the Jewish Heritage Tour but it hit most of the Christian and Muslim highlights of the country as well and met a couple from Greensburg who knew Sister Ann Infanger. "Swam" in the Dead Sea, ate lunch at the oldest kibbutz and saw the impressive Masada. Wonderful and memorable trip despite the 90–100 degree heat wave... **Joan Yetter Freda** has ten grandchildren, ages 22 to almost 4. Two live nearby while others are more distant including Germany. She recently had a great family gathering at Oak Creek Ranch near Santa Margarita, CA. Joan was diagnosed with breast cancer in 2008 but, after surgery, now cancer-free. She enjoys Mah Jongg (good for brain) and belongs to Questar, an organization interested in antiques and historic preservation. She is also active in a book club and dinner group and an active Associate of Sisters of St. Joseph of Baden, PA... I also am happy to report that many of our classmates commented on **JoAnne Woodyard Boyle**, President of Seton Hill University. You are doing a fabulous job. We are proud of you... Our dear friend and mentor, **Sister Mary Francis Irvin** passed away Monday, January 8, 2011. She was 96 years old. **Eileen Perkins Haggerty**, our class president, sent a floral arrangement from the class of 1957 with the following message – "To our dearly remembered Sister Mary Francis whose time, love and devotion graced our Seton Hill years. May you rest in peace until we meet again."

Class of 1958

News Agent: **Mary Alice Heagarty Burgan**, (202) 797-1065, mary.burgan@verizon.net, 1517 P St NW #1, Washington, DC 20005-1943

In preparation for this edition of the *Alumni News*, **Mary Alice Heagarty** noticed that **Marian Baumbach Jacq** now lives in Whitefish Bay, WI, a suburb of Milwaukee – a town M. A. grew to love when she taught at Marquette for a year in the early nineties. She discovered that Marian and her husband "have been in Milwaukee for 32 years – my husband worked for General Electric. We never thought we'd stay long enough to retire here but we're glad it has worked out that way as we love the area. Having Lake Michigan nearby makes up for a lot of cold winter weather."... From the West Coast **Judy Stanley** writes that she continues to be active as the Secretary of Cal State University state-wide association of retired university faculty; a volunteer with the READ ALOUD program at a local public elementary school; a member of the boards of Vision of Hope (a program supporting inner-city Dominican elementary schools), a Scholar at "Olli" – a life-long learning institute sponsored by the Bernard Osher Foundation, and one of the "collection counting

ladies" at her parish church. Judy spent Christmas 2010 in Michigan with her sister-in-law, **Theresa Wathne Stanley-Simaner '61** and family, and will visit **Betsy Salvatore Cole '59** and husband Jack in Florida in February, and while there hopes to see **Lynn Conroy** who lives not far from the Coles... Lynn has written "Bernie [husband Bernie Brown] and I have fled the Northeast cold and ice for Florida sunshine, until the end of April. I'm preparing for my short fiction discussion group which meets at our library February through March. I'm staying in the sunshine."... **Jackie Hughes**, has been making annual winter trips between Pittsburgh and North Port. This year, though, she also writes against the Pennsylvania cold, "As for me, I'm so happy to be in Florida that I ponder the advisability of just staying here... unless I can find a cheap villa in Tuscany!"... **Nancy Reinstadtler Boyer** has stayed in Pennsylvania, and writes that she planned to spend a few days with **Charlene Trichtinger Dorrian** in Washington last summer but that she slipped a disc and didn't get there. She busies herself with friends, teaching CCD, exercising, and keeping tabs on her six grandchildren, ranging in age from 13 to 3. Nancy asks herself, "Did I love my own children as much as I love these grandchildren? They are God's great way of keeping life exciting!"... **Nancy Morrissey Barnette**, a fully transplanted Floridian, writes a substantial account of her own life after Seton Hill: "After teaching Kindergarten for 30 years, I retired in 1995. Since then I have been busy doing a variety of things. I still work as a substitute (not in the classroom) and am a member of Alpha Delta Kappa an honorary international sorority for women educators, was president of my chapter Beta Epsilon for two years, and am presently president of the ADK Broward County Council of Chapter Presidents..." "The jewel in my crown is certainly my son, Craig, who is 35 and lives in Jacksonville, FL. Craig is the drummer with a band Donavon Frankenreiter. As we speak, he is in Japan and after his return to American soil will depart for Brazil and later Australia & New Zealand. The website donavonf.com tells all about the band and plays samples of their music, with links to videos etc." Other Class of 58 parents of musicians can share in Nancy's pride... In keeping with the fine arts motif, **Barbara Hilt Murray** wrote: "The biggest thing that happened to me this year was the Egyptian Exhibit that was at our Museum of Art in Tulsa, the Philbrook. I am a docent there and I had a ball all summer long leading wide-eyed kids and adults through some of the best stuff from the Brooklyn Museum. We had it all summer and our attendance went through the roof. I became a docent there two years ago, and it keeps me out of trouble."... **Regina McKay Armswood** wrote from North Carolina: "The year 2010 has been a milestone for the Armswood family. We celebrated Bob and Gina's 50th wedding anniversary with the anniversaries of each of their own kids by taking a cruise to Bermuda at the end of May. It was good to have our children and spouses together. "It is hard to believe but we have been in Pinehurst for over 10 years. The days and evenings find us at the fitness center, the NC Symphony, the Classic Concert Series, lectures at the community college, and plays at the local theater." Gina notes the passing of **Ginger Paquette Fischer** last year. We remember her gentle spirit with great affection and a sense of her loss to us... From Connecticut, a stalwart winter warrior, **Gee Hoffer Grosso**, writes: "In 2010, we had another grandchild, bringing the total to 18. A group of online friends (we met through Oprah's book club) who have been in almost daily communication for 14 years lost one of our "bookbuddies" to cancer in Dec. and many of us traveled to meet her family in Virginia Beach. Some had never met Nancy face to face, but she truly was a dear friend. Such is the power of the Internet. Ron and I both in good health and performing with our group from the Sr. Center, called 'The Elderberries.' This time around we sang "Ah Yes, I Remember It Well," from Gigi (think Maurice Chevalier and Hermione Ginggold!) – when, in truth, we don't remember all that much so well anymore ;o) Best wishes to all the Class of '58." "G"... **Sue Weber McCoy**, our classmate who lives in the South (Georgia) year-round, said she didn't have much to report this year, but that she had talked to **Gale Dickin-ison Short** before Christmas. Gale was looking forward to the visit of her daughter Susie and Susie's husband's for the holidays."... Sue noted that she would love to hear about **Fran Pellicano Depaul's** trip around the world with her husband John last spring, so the News Agent called Fran to ask for an account of the highlights. Here's part of her reply. "During my 2010 spring semester sabbatical, my husband and I enjoyed a world cruise aboard *Seabourn Odyssey*, leaving Ft. Lauderdale on January 5 and returning home on May 1. Itinerary highlights included, among others, visits to Hawaii, Christmas Island, Tahiti, Bora Bora, New Zealand, Australia, Bali, Brunei, Hong Kong, Vietnam, Singapore, Thailand, Cambodia, India, Dubai, Jordan, Egypt, Israel and Greece."... "We saw riots, excruciating poverty, cyclones, thirty-foot seas and Somali pirates (thankfully held off at a distance by a British Frigate and helicopters protecting our convoy of ships). Perhaps the most important lesson learned from our voyage is that our system of government by the people is vastly superior to the various forms of autocratic rule imposed on too many populations elsewhere in the world. Such first-hand experience motivates one to get active and stay active politically, because good government really does matter." Read the entire piece at <https://alumni.setonhill.edu/Odyssey> ... Meanwhile, **Charlotte Dimond Smith** chose to write less about her own family than about a pair of Ospreys who have built a home together on a marsh near their house in Massachusetts. Read the entire piece at <https://alumni.setonhill.edu/Osprey>. Here's a sample, describing Osprey parenting: When the big day for him to leave the nest came, weeks and weeks later in the season, the 'baby' was bigger than either of the parents. He had practiced flapping his wings for days before he left the nest entirely. That evening I was privileged to witness an incredible flying exhibition by the three of them where they rived the Blue Angels of aviation fame by flying in formation crisscrossing over each other's pathways. Picture braiding hair and you have it. The chick's cor-

ners were a little rough, but he knew what to do and where to fly. We, of course, thought none of them would be back to the nest for the rest of this season, but the very next day, there the 'baby' was sitting on the nest squawking for a fish! Anytime he hungered, his parents responded. Any visitor to our home during that period thought we should name it after one of their children who was having trouble 'leaving the nest' and kept returning for meals and shelter!" Charlotte ends with a thought for the Class of 1958: "So, you can see that we must be ok if this was one of our main focuses. We hope your year has been as exciting and is full of the goodness of God and hope for a more peaceful 2011. It is a joy to connect with all of you. Peace."

Class of 1960

New Agent: **Pat Prescott Fogarty**, fogey11@optonline.net, (973) 984-5802, 76 Stockton Ct., Morris Plains, NJ 07950-1296

Pat Prescott Fogarty reported, for me our 50th reunion was beyond all expectations. It began with hugs and tears when we signed in on Friday June 4th. This wonderful first day ended at our President's dinner with JoAnne Boyle relating our university's multi-faceted accomplishments for the past year. Our class can take great pride in giving the largest, to date, class contribution. Many of us gathered later at the hotel lobby to meet and renew relationships, sing Happy Birthday to **Madeline** and revel in the spirit of the Class of 1960.

Our spirits on Saturday were not dampened by the inclement weather. After our short class meeting many of us chose to attend a variety of campus events. My husband Tim and I took the tour of the Performing Arts Center in downtown Greensburg. In our estimation, the building's design and amenities proved to be equal to any major metropolitan areas offering. The multiple class dinner on Saturday night was highlighted by the Distinguished Alumni Leadership Award presentations. Our own **Joanne Bergamasco Gabriel** and **Joanne Salvador Highberger** were honored from our class. For many of us the evening culminated with our gathering at Lois' (**Lois Sculco, S.C.**) home. I had to pass on Sunday's events due to an early morning trip to the hospital that proved to be minor. But hearing of the celebration of Sunday's Mass I understand that we missed something quite memorable. At our class meeting many filled out a form/ questionnaire, "my classmates would be surprised to know that"... **Gail Simpson Hogan** has become a wine enthusiast and loves to study about different wines (of course tasting is essential!)... **Kay Shots Shedwick** collects WWII home front items and sweetheart jewelry. As we are gathering our news, it is the beginning of a new year and a new decade. We have chosen one or two words to describe how we feel at this stage in our lives and are including those reflections with our other news... **Terry Burson** starts us along the right path. “I’m writing a book that has opened a whole new life chapter! I’m excited and hopeful.” ...**Pat Barey** lives in Tucson and was on her way to a funeral January 8th when the shootings occurred. “I thought of stopping by to say hello to Gabby but I didn’t want to be late. Giffords is my representative. And that’s my Safeway. Earlier that day I would have said I felt bright and sunny, like the sky above me. Since the catastrophe, we now know how it feels to live in the shadow of a madman with a gun. Sad and vulnerable, with heartache all around. Presi- dent Obama’s words – eloquent consolation – lifted the gloom and revived our spirits. Changed is the word I’d use today. I want to go through life with Daniel Hernandez and Dr. Peter Rhee by my side.” ...**Sharon Brewer** also lives in Tucson. “As I sit down to write this, it’s the first time I’ve come off the emotional roller coaster of the past week to organize my thoughts about the tragedy. When word first reached us, my reaction was shock and disbelief. As details began to unfold, I was overcome with anger at the tragic loss of life, the pain of the wounded, and the grief of the families. I was so angry at the senselessness, devas- tated that it happened in this city and state that I love so much. Everyone of us has some direct or indirect connection with the victims. The funerals are almost over for a beautiful nine-year old girl, a much respected federal judge, a dedicated young con- gressional aide, a husband who threw himself over his wife to save her. As the week has passed, I have taken heart again. Tales of courage and generosity come every day as does an out- pouring of prayer and support. President Obama’s words have moved and healed and inspired us. He called for us to ‘do every- thing we can to make sure this country lives up to our chil- dren’s expectations.’ We pray that the dead, wounded, and families of all involved have not suffered in vain. Perhaps out of this tragedy, we will become more nurturing of the many things we have in common instead of dwelling on our differences.” ... **Bonnie Harshbarger** has spoken with Sharon every day. “The shooting reminds me of Dallas and President Kennedy. It is a miracle that Rep. Giffords survived. I feel a particular connec- tion to the event because my married name is Maisch, and it was Patricia Maisch who wrenched away the killer’s ammuni- tion.” Bonnie has had a bad fall, cutting her leg to the bone, but is recovering well. She is grateful for time and the new adven- tures, travels, and adult classes she enjoys since retir- ing...**Majda Tavcar Ambrozic** also speaks of a deep sense of gratitude. “I am grateful for all we have, especially our grand- children, and hopeful that, with the work of the Holy Spirit, we will find a peaceful way to co-exist as human beings.” She and her husband Jerry took a cruise to Alaska, and loved seeing the glaciers, blue ice, whales, and other wildlife...**Mary Ann Campalong Myhre** went to Alaska too, cruising the Inside Pas- sage and exploring other parts of the state on land. “The scenery was spectacular, and reconnecting with Norene Halvonik made it extra special.” Mary Ann joined her sister for the trip of a lifetime – to Egypt and the Nile, Red Sea, Cairo, pyramids, sphinx, and ancient temples. “I’m grateful for my children, grandchildren, family, and friends for their love, sup- port, and prayers especially since the death of my husband Gordon.” ...For **Barbara Edwards MacKenzie**, faith is the first word that comes to mind. “It is almost two years since Stu’s death from cancer, and I can say that I am at peace. I feel that God held my hand and we traveled His sometimes bumpy road

together. I cherish all of the experiences throughout my life as the threads connecting me to my faith.” ...**Marge Randazza Callahan** feels blessed to have a grandchild. “It is 40 years since my daughter Megan died. Life seemed as if it had ended then. Now I have an exuberant adopted daughter Kate and a grand- son who enchants us all.” ...**Paula Kiles Newman** is “thankful, peaceful, and spiritual. Thankful for good health, family, beauti- ful grandchildren, and my wonderful sister. I am very happy to have the chance to travel and explore new adventures.” ...From **Jeanie Keally Mayes**, “I’ve chosen two words: thankful and joy- ful. Here in South Africa, we have so much to be thankful for – the natural beauty that surrounds us and the beauty in the peo- ple we interact with. It would be difficult for me not to feel joy- ful. I try to cultivate joy, keeping in mind the words of Mother Teresa: ‘A joyful heart is like a sunshine of God’s love, the hope of eternal happiness, a burning flame of God.’” ...**Karen Jacoby Cote** says “For me, one crystal word is WORD, for this means Christ, who is our Unity, Liberty, and Peace.” ... **Priscilla Garvis Naworski** realizes that “my stage in life now is giving back. My husband and I have chosen to share our talents in activities that give to others – St. Vincent de Paul, the Lifelong Learning pro- gram in our community that I chair, educational activities for our grand kids, and charity quilt making.” ...**Loretta Stana** is happy living on her farm despite her health challenges. She is grateful for many things, especially administering a friend’s small chari- table estate that allows her to help others.” ...**Margi Fiori Slavo- nia** and her husband Jerry expressed their gratitude to Seton Hill by endowing a music scholarship. Margi writes “this past year was filled with good health, family and friend reunions, travel, and best of all, good times with our sons, daughters-in- law, and grandchildren. I have the joy of running into many of my students and school families as I live in the community where I taught and administered for 25 years. I continue with my cancer outreach and am part of a local history committee. Jerry and I reattached ourselves to Seton Hill and St. Vincent with the scholarship because it was where we met. We are now starting our 47th year of marriage. We are grateful for a quality education that prepared us for work and, more impor- tantly, for life.” ...**Daly Anne Mackowski Schreck** is fully retired now. “After 30 years as a summer program teacher where I taught art, cooking, drama, math, and reading, I finished up by teaching reading and writing to first through third graders. It was fun and challenging, and I loved the children and their par- ents, many of whom I taught when they were kids. My husband Dave and I celebrated our 45th wedding anniversary with a “Romantic Rhine River Cruise.” Our tour featured talks by two professors, one born and raised in Germany who filled us in on history and politics, and the other a humanities professor from Yale who talked about art and architecture. I credit Seton Hill for my appreciation of the arts. When I think of Sisters Mary Estelle, Mary Francis, and Josepha Mary, I have feelings of much gratitude for the history and aesthetics they opened to me.” ...**Carol Ann Wilson** was honored to receive The Founders Award from the Sisters of Charity of Saint Elizabeth in Convent Station, NJ. Not only was she taught by the Sisters of Charity of Convent Station from grade school through high school, she realizes that her family history is entwined with the Sisters from New Jersey. “Both my parents were educated by them. They are part of my family legacy and have been since my great grandparents came here from Ireland. The Sisters of Charity, both New Jersey and Greensburg, set the example for us and encouraged us as Seton daughters to assume leadership roles in our communities.” ... **Gail Vermilyea Quigley** spent the sum- mer at her home in Helmsley, England where she has many friends, and visited her husband John’s family in Oxford and London. “The words that express where I am in my life are thankful and content. I’m thankful for all my friends and family that have been there for me over the past two years. I’m con- tent with where I am in life and looking forward to where life may take me.” ... We never know where life will take us, do we? Several classmates are going through difficult times and did not feel comfortable sharing their news. But **Mary Liz Allen Richardson** admits that the word best describing her now is determined. “As I watch my husband deal with the effects of Parkinson’s, I am determined to continue our life as we have known it for as long as possible. For several years we have taken vacations in Florida and Niagara-on-the-Lake, and each year I wonder about making plans in advance. We live in hope, and I’m reserving a place for us again.” ...For **Bobbi Fitzgerald Grant**, life holds both joy and sorrow. She feels helpless as her daughter-in-law undergoes chemo, a mastectomy, and radia- tion. When illness affects the children we have borne and love so tenderly, our hearts are sad indeed. Bobbi’s mother has adjusted well to assisted living, and Bobbi and her husband John took a Caribbean cruise to celebrate his 75th birthday and their 25th wedding anniversary. ...**Laurene DiGennaro Kristof’s** husband also celebrated his 75th birthday. “If I had to use a word or two to describe myself now, I’d say that I am happy and optimistic. We are blessed! I love being a grandparent and a volunteer. My family is my greatest joy. I have the health to do what I want to do and a supportive husband who just smiles when I join another committee. We enjoy traveling. Because we audit courses at St Vincent, we are around young people who give us reasons for optimism about the future.” Laurene reminds us that the next Seton Hill-St. Vincent Couples Reunion will take place in July in Greensburg and Latrobe. For info, please contact her at zoltanj@comcast.net ...**Kathy Haas Stukus** writes from Maui where she and Phil were enjoying a delightful respite from Ohio winter weather. “One thing that describes how I feel now is that I have a strong awareness of how precious time is. Knowing that the years ahead of me are far fewer than the years I’ve already lived, I try to use my time as wisely as possible.” ...**Diana Murphy-Greiner** also uses her time well, and is happy to report the completion of a 25,000 ft. parish Life Care Center with a full-size gym and many offices and classrooms. “It has been a four-year project as the Center was built totally by volunteers. Mary Ann Scialdo '63 • July 1, 2010

The internationally renowned pianist Mary Ann Scialdo '63 devoted her life to the study and teaching of music. At the age of five, Mary Ann was awarded a full scholarship to Julliard School Pre-College Division (where she continued until the age of 15); she gave her first concert in New York at the age of 6. At Seton Hill, she studied music (of course), and lent her talents to a variety of concerts and performances; she also composed the class song. While at Seton Hill she won both the Pittsburgh Young Artists Competition and the National Federation of Music Clubs Competition. Mary Ann made her debut recital in Pittsburgh as a soloist with the Pittsburgh Symphony. After graduation from Seton Hill, Mary Ann received a rarely awarded personal fellowship from Francis Cardinal Spellman to the Pius XII Graduate School of Fine Arts in Florence, Italy, where she obtained her M.S. in perfor- mance. She studied at the doctoral level at Peabody Conservatory in Baltimore and also holds degrees from the Julliard School of Music, the Manhattan School of Music, and Fordham University. In addition to formal music education, Mary Ann travelled to both Italy and Russia to study with musicians and performers. (She also married; her union to advertising executive Charles A. Ortenblad III lasted 25 years, until his death in the 1980s.) Her many students received the benefits of her talent, dedication and tireless enthusiasm. Mary Ann taught in music programs at the elementary and middle school lev- els in New York and Florida, and served as director of the Carrollwood Cultural Center in Tampa, where she led choral and community theatre groups for both children and adults. In her last few days she was overwhelmed with visitors, including members of the cast of the Salerno Theater production of “Man of La Mancha,” which had played at the cultural center the year before. They sang “The Impossible Dream,” straying off tempo briefly. Mary Ann, barely conscious, raised her hand to direct the music – living the life she loved to the very end.

If you are one of Mary Ann’s classmates and would like to donate to a fund to name a chair in the William Granger Ryan Theatre in Seton Hill’s new Performing Arts Center, please visit www.alumni.setonhill.edu or call 877-748-4438.

ter electrician, did all the electrical work, and I headed up the fundraising committee. In the back is a beautiful memorial gar- den with a path of inscripted pavers called the Walk of Faith.” Diana has a new granddaughter born January 8th...**Fran Kamin- ski Slattery** is also mindful of time as she juggles work, family, and volunteer activities. She feels happy and blessed, and tries to put the awareness of passing time behind her...**Joyce Cadier Kintner** loves the freedom of this time in her life when she’s not interrupted and can do what she wants to do. “I’m fortunate to be healthy and to have a family and work that give me a sense of harmony.” ...**Mary-Ann Kerekes Salvatore** speaks of inner har- mony from her missionary work in India, close family ties, and travel to places she loves...**Arlene Carapellucci Carmichael** describes herself as fortunate and healthy. “I am fortunate that my four children are loving and kind and generous, good moth- ers and fathers, hard workers, and excellent role models for my eight grandchildren (the ninth is on the way). I am fortunate that I have a job, a home and food, and the means to help others. My husband and I are healthy and enjoyed vacations in Alaska and North Carolina. We travel often to see our children/grandchil- dren and they come to see us, too. I am very conscientious about taking care of my health by selective eating and exercis- ing, and am reaping the benefits of the efforts I’ve made the past 30 years. Knowing that things could change in the next minute, I give thanks and praise throughout my day always.” ...As time has passed, **Sally Conroy Fullman** has changed from that long- ago notion of looking good to a new one: seeing holy. “I am aware of holiness in people around me – a child at play, a young person searching for meaning in life, an elderly person strug- gling to keep things together – and I try to be conscious every day of the sacred dimension of life.” ...**Mary Ann Corbo Connors’** mother celebrated her 90th birthday, and her husband Ed came through aortic valve replacement surgery. Still teaching mathe- matics on the university level, supervising student teachers, and serving as judge in the INTEL International Science and Engi- neering, Mary Ann feels serene and fulfilled regarding her life accomplishments and remains excited about learning new things and enjoying each moment...Terry started us off, and now **Sue Carman Patrick** brings us to the end of our reflective jour- ney, with wisdom and humor. “My word is blessed. Blessed to have reasonably good health (I take meds that were not avail- able to past generations, and will have my old knees replaced thanks to the wonders of modern medicine); blessed to have married a wonderful man 38 years ago and to have three healthy happy children; blessed to have great friends that have support- ed me in joyful and difficult times; blessed to be retired and able to give back by volunteering and taking classes that keep my mind stimulated, and to have time to take a nap if I want to; blessed to have had the opportunity and health to travel, this

year to Ireland and the Panama Canal, and to have lived overseas for two years from 1985-87 and traveled throughout the world; blessed to have the precious gift of faith and a parish family that renews me each week.

Maureen O'Connor (photo left) took office as Chief Justice of The Supreme Court of Ohio as of January 1, 2011. Chief Justice O'Connor is the first woman chief justice in the 207 year history of the state and the 10th chief justice. She was elected in November with 68% of the statewide vote. In 1998, Ohioans elected Justice O'Connor as their lieutenant governor — the second-highest official in the state. She quickly became the governor's chief advisor on criminal-justice issues, serving as director of the Ohio Department of Public Safety, and as chair of Ohio's Security Task Force and the State Building Security Review Committee. Justice O'Connor's experiences in law enforcement proved invaluable, particularly in the wake of the Sept. 11 attacks, when she led the state in its response to new threats of terrorism. Her leadership in this area garnered the attention and praise of the country's first homeland security director, Tom Ridge. Like her previous election, Chief Justice O'Connor won election as Chief with more than 67 percent of the popular vote, nearly the same percentage earned in her 2008 general election victory. Janice Malego Steinhagen ‘79 Co-Authors “Heart Sounds: 12 Catholic Doctors”

Physicians and medical students who seek to fully integrate their Catholic faith with their medical practice will find encouragement and inspiration in a new book released by Janice Malego Steinhagen ‘79. “Heart Sounds: 12 Catholic Doctors” is co-authored by Janice, the founding editor and former longtime columnist for the Four County Catholic newspaper in Norwich, Conn., and John Howland, M.D., a Catholic family physician and regional director of the Catholic Medical Association. The book presents first-person stories of a dozen Catholic doctors, ranging from a second-year med student to a recent retiree. Their backgrounds vary from cradle Catholic to fairly recent convert, and their specialties range from infectious disease to psychiatry to pediatrics to sleep medicine. Each tells the story of his or her path to the practice of medicine, along with the story of his or her journey in faith with Christ. Janice earned an art education degree in honors at Seton Hill but went on to a career in Catholic and secular journalism. She wrote for the Mount Pleasant Journal in Mount Pleasant, Pa. and for the Rose City Sentinel after her move to Norwich. She was the first editor of the Four County Catholic, the official newspaper of the Diocese of Norwich, after it was established by Bishop Daniel P. Reilly in 1988. She left the paper in 1990 to raise her family, but continued to write her monthly column, “From the Pew,” until 2007. Her writing has also appeared in the Willimantic, Conn. Chronicle and in several other secular publications, including Mothering, Art New England and Ceramics Monthly magazines. “Heart Sounds: 12 Catholic Doctors” is published by St. Luke’s Books in association with the Marian Press of Stockbridge, Mass. Eileen Malesky '97 Opens Promise Hospice

Eileen Malesky '97, a mother of three and a native of West Mifflin, Pa., came to hospice care by accident. While finishing her graduate work in management health care services at Seton Hill, a social worker from

a local hospice told her of the need for volunteers. Eileen accepted and was immediately hooked, becoming a passionate believer in the hospice philosophy of quality of life and comfort care. In 2010, with 15 years of hospice care experience under her belt, Eileen opened the Promise Hospice in Irwin with her friend (and fellow hospice care veteran) Beth McGough. As it states on their business cards, on their brochures and on their website: "You have our word." Promise's word is inherent in its mission: "We will care for you as though you are our mother, our father, our sister, our brother – our very best friend. We Promise." Above: Eileen and Tahoe. Pet therapy is one of the many significant volunteer services Promise Hospice offers its patients.
